TRUSTWORTHY PARTNER

Within the security sector, Securitas is a forerunner in the development of professional security of persons, premises, land, goods and the monitoring of business processes.

The focus of Securitas is to meet the demand of their clients for specific security by continuously investing in the product they are offering. Investing in staff, resources and technology is the basis for innovation.

Increasing knowledge, make use of the technological possibilities in the field of security and the continuous dialogue with the client, leads to a 24/7 integrated security package that suits and exceeds the expectations and needs of our customers.

When choosing Securitas, you will be guaranteed of decisiveness, flexibility, professionalism, innovation, trust, transparency and integrity. These core values ensure you that by working with Securitas you have an honest and reliable partner for your security.

ALARM MONITORING AND FOLLOW UP

At Securitas you have the possibility to connect your alarm system to our 24/7 Control Room. The centralists of our emergency control room are connected with your alarm system day and night. **Burglary, robbery and fire alarms** are handled remotely, quick and correct.

From the control room our patrol units are being directed to ensure a quick alarm follow-up. Next to that our patrol units are permanently present in the various districts on Curaçao. They preventively supervise **24 hours a day in the various neighborhoods (from Jan Thiel to Banda Bou)** and immediately respond adequately to alarm messages. Also in case of suspicious circumstances at your home or business you can count on the patrolling service of Securitas 24 hours a day free of charge.
